SUMMARY

Web Developer passionate about building responsive, user-friendly websites using HTML, CSS, JavaScript, and ReactJS. Focused on clean design, functionality, and continuous learning. Experienced in collaborating on academic and personal projects, turning ideas into interactive, real-world solutions.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript, ReactJS
- Backend & Databases: Flask, MongoDB, MySQL
- Programming Languages: Python, Java, Dart
- Mobile Development: Flutter
- Tools & Others: MS Excel, VS Code, Android Studio

ACADEMIC PROJECTS

Discovering Derelicts

Developed an interactive, story-driven PC treasure hunt game focused on exploration and mystery. Built entirely using HTML, CSS, and JavaScript, the game guides players through a branching storyline set in a derelict sci-fi environment where users must solve puzzles, uncover hidden clues.

VoltWise - A Current Measuring Device

VoltWise is an IoT-based smart energy monitoring system that tracks real-time voltage, current, power, energy consumption, and cost of connected devices. Developed a responsive web interface with live gauge meters and data tables for analysis as well as a Mobile Application.

IntelliCon - Campus Connection Hub

IntelliCon is a dynamic campus connection platform designed to connect students through academic recognition, and real-time communication. The platform encourages innovation, recognition and transparency in academic environments.

EDUCATION

Bachelor of Science in Computer Science **May 2023 - May 2026**

Keraleeya Samajam's Model College (Autonomous)
